WHAT DO YOU WANT?

This is the question which we posed to you in Volume 30. It was an effort to come up with an irresistible incentive for renewing your Nintendo Power subscription. We're still working on new incentives, but we thought it might be interesting to show a few of the suggestions which were received.

SERIOUS CASH-FLOW!

This is what would be irresistible: a \$100,000,000,000,000,000,000,000,000,000,000,000,000,000,000 shopping spree. Of course I know you can't do that, but it would be nice.

Jeremy Bratcher
Mammoth Cave, KY

Extremely nice!

AND IN THIS CORNER...

I think it would be cool to offer free NINTENDO POWER boxing shorts. I have included a sketch of what they may look like.

Timothy Deems
Fairmont, WV

A CASE OF BRIBERY

What would make renewing absolutely irresistible? If you would print this Halloween photograph of my son, Tyson, as Dr. Mario and Game Boy, that's what!! We made this costume together and he won our Mall contest!

Cathy and Tyson Robbins
Warren, PA

OK Cathy, we're happy to run the photo. Now where's the cash!

GOOD DENTAL HYGIENE

I would run to the post office to order a yearly subscription to Nintendo Power if you offered me three truckloads of candy and a portable dentist for all the cavities I would get.

Ann Butzer
Lake Elmo, MN

Let's see...three truckloads...NAH! You wouldn't need a dentist. Your teeth would have fallen out by that time.

AIR HAGEN

Something totally irresistible would be if you renewed for a year you would be able to get three of your friends to play a basketball game against Michael Jordan and Scottie Pippen.

Isaac Hagen
East Kingstown, NH

If you could be any video game character, who would you be? Link? Ryu Hyabusa? Princess Toadstool? Merga Man? Bowser? Donatello? Zane? . . . Blarg? Send your letters explaining what character you'd like to be and why you would want to be that character to:

POUNCE

YOU LIVE WHERE?!

When Nintendo first came out, to say we enjoyed hours upon hours of Mario & Luigi would be an understatement. Seven months of that enthusiasm produced these scenes on the walls of our son's room. Chrylic and D.J. actually live in Super Mario Bros. World. Though these scenes were painted years ago by my wife and I, our enjoyment of the NES has not diminished. Thirty-five games and a Super NES system later, we still spend time squashing creatures, dueling monsters and jumping the longest gaps.

FROM THE HOT GLUE KINGDOM

A few years ago, I decided to make my figures out of hot glue. I found that the creatures in Nintendo games were easy to make. After I got better at making them I started to make the people. The characters are solid hot glue. On some of them, I glued cloth on and then used magic markers on them. After this, I spread on a thin layer of hot glue so that it won't come apart. The newer ones (Ganon, Link, Zelda and April) were painted. They have held up well considering my four-year-old niece, Casey, plays with them all the time.

EDITOR'S CORNER

It's time for Nester to break out his trusty calculator and do some heavy figuring. This month's issue contains the Fourth Annual Nester Awards. The year 1991 has passed us by, but it left us with some fairly impressive software offerings. Vote for your favorite game in each of the given categories. The number of categories which you can vote on has been expanded this year in an effort to give equal billing to all three Nintendo systems. The winners of the coveted "Nester" will be announced in an upcoming issue. Ponder your favorites, pull out the perforated Player's Poll card, push your pen or pencil, paste your stamp, and put it in the nearest mailbox...please. Nester and I thank you!

STAR WARS THE EMPIRE STRIKES BACK

Hot on the heels of Star Wars for the NES comes an adaptation of its hugely successful sequel, *The Empire Strikes Back* from JVC. The game follows Luke Skywalker as he fights the dreaded Empire, trains to be a Jedi Knight and attempts to save Han Solo and Princess Leia from the clutches of Darth Vader. Digitized voices of the characters and a scene by scene account of Luke's journey make this game a must-play for fans of the film.

SCENE ONE ICE CAVES

While guarding the hidden Rebel base on Hoth, you've set out to explore a recent meteor-like collision on the surface of the planet. The crater leads to a

massive ice cave. Explore the cave for possible Imperial Probes and try not to be surprised by the Wampas that lurk below the surface.

START

1 BLAST THE WALL OF ICE

From the Rebel Garrison, the Rebel transport has been hit by a wall of ice. Blast away the ice with your blaster and you'll gain passage to this area.

It is really the Rebel Force in a large Wampa-like droid.

1

LUKE! USE THE FORCE!

THE EMPIRE STRIKES BACK

The powers of the Jedi brought you help you carry out your mission across the Empire. Throughout your journey, you'll find items which add to your abilities. As long as you have Force Power, you'll be able to use these new abilities to perform incredible maneuvers. These newfound abilities include the power to run faster than ever before, jump higher, levitate and

utilize your awesome "Jedi Search" for the Force Items, a new feature to stop Darth Vader.

The collection of abilities in the game comes in 1-4. Once you've used the powerful, but risky weapons, you can activate it by pressing the Select button.

HIGH JUMP

You'll be able to jump high and far when you activate the power of the Force.

SPEED

Use the power and you'll be able to run to the rescue of Leia and Han with incredible speed.

BLASTER

When you use the power of the Force, you'll be able to shoot a Wampa and you'll be able to shoot a Wampa.

REFLECT

When you use the power of the Force, you'll be able to reflect the shots of your Imperial enemies.

ENERGY

When you use the power of the Force, you'll be able to use the Force Power to heal the Force.

LIGHTSABER

When you use the power of the Force, you'll be able to use the Force to use the Force.

LEVITATE

When you use the power of the Force, you'll be able to use the Force to use the Force.

WHOMP THE WAMPA

The best Wampa that you'll encounter in this cave is a wampa next to a cliff. Press Down on the Control Pad

to give yourself super jumping power and leap over the Wampa. Then jump onto the cliff and blast at this bear-like creature from a safe perch.

Jump over the Wampa and blast from the cliff.

SCENE TWO

ICE CAVES

Sensors indicate that an Imperial Probe Droid is transmitting the location of the Rebel Base from the next ice cave. It's your job to find this evil mechaoid

and destroy it before it can do any more damage. Beware of Hothian creatures and deadly water below.

START

1 BLAST AND RUN

Walk along the catwalk you did in the cave to the ice cave. Hit them from below with laser shots and keep moving. You should be able to take care of them easily.

TO SCENE 1

2 RETURN PASSAGE

Beware! When you drop down to the lower-left section of the cave, you'll have no choice but to return to the first ice cave. If you missed some Force Items in the first cave, you can use this passage to go back and collect them as they will be very valuable to you in other parts of your adventure. Jump onto the ice blocks to the left and float over the deadly water into the ice-packed area.

BATTLE ON THE SNOW FIELDS

The Probe Droid sent a message to Imperial Forces detailing the location of Echo Base. Now AT-AT Walkers are making their way across the snow fields. Climb into your Snowspeeder and try to slow down the attack while your comrades escape. You can see the AT-AT Walkers on a radar view at the top of the screen. Fly towards them and blast them with your Cannons. If you're shot down, you'll have to take on the Stormtroopers and Walkers by foot while you're waiting for another Snowspeeder to appear.

TRIP 'EM UP

Since the Walkers have such long legs, you can trip them by hitting the legs with your Grappling Hook and Tow Line. You've only got five Tow Lines, so use them sparingly and only when you're sure that they'll connect.

Use a Tow Line on the legs of an Imperial AT-AT Walker and you'll drop the Walker into the snow.

FIGHT ON FOOT

If your Snowspeeder is shot down you can fight the Walkers on foot. Press Up on the Control Pad when your character is positioned between the legs of the Walker. He'll climb up and hit it with the Lightsaber.

If you're blasted out of your Snowspeeder, run to the Walkers and hit them with your Lightsaber.

4 DESTROY THE DROID

The Imperial Probe Droid is hovering at the upper-right section of the cave. While making your approach you'll see the energy meter of the droid. You may be able to make it disappear by leaving the general area and returning. If that doesn't work, you'll have to blast it into bits. Grab

the Big Heart when you're low on energy and keep plugging away at the droid.

**THE EMPIRE
STRIKES BACK**

TO SCENE 3

3 BREAK THE ICE

There's a huge wall of ice at the lower-right section of the cave. Use your Blaster and Lightsaber to break through the ice. This man-made passage will lead you to a chamber that holds a Big Heart and the Force item that allows you to reflect the shots of your enemies with your Lightsaber. This shield-like power will be very useful to you later, when you take on Imperial Forces.

After you blast through the walls of ice and snow, you'll be able to pick up a Big Heart and a powerful Force item. Grab these Power-Ups and move on to the Imperial Probe Droid.

When the Walker pilots see that you are without a Snowspeeder, they'll send down Stormtroopers to fight you. Hit these Imperial goons as soon as you see them.

NES

EVACUATION OF ECHO BASE

Imperial Stormtroopers have entered the Rebel Base and are systematically destroying it. You've got to fight off the Stormtroopers and their AT-ST Walkers

so that the last of the rebels can escape. Then hurry to your X-Wing Fighter and make your own escape to Dagobah.

1 ROCK THE WALKER

Before you drop to the level of an AT-ST Walker in the middle of the base, stay on the ledge above it and fire down diagonally. You should be able to destroy it without losing energy.

2 BREAK THE BEAMS

In order to cross to the final level of the base, you'll have to ride on several moving platforms. Run onto the platforms first and clear away the beam-producing generators in the area.

JEDI TRAINING ON DAGOBAH

Obi Wan has instructed you to fly to Dagobah for Jedi training with the great master, Yoda. Search for Yoda on the surface of the planet.

Fight off strange creatures

Ride on moving platforms

Find the Jedi master, Yoda.

Learn the powers of the Force

FIGHT IN FLIGHT

After you go through some of your Jedi training, you'll learn that Leia and Han have been captured by Imperial Forces in the cloud city of Bespin and that they need your help. Before you can dock in Bespin, you'll be ambushed by Cloud Cars and TIE Fighters. Circle the city and fire on these massive forces. When they've all been cleared away, you'll be able to continue your journey in the city.

Leia and Han need your help in Bespin.

Blow away all Imperial Forces around the city.

You'll go out again later to save Han from Boba Fett.

THE EMPIRE STRIKES BACK

3 STEAL A WALKER

As Lando delivers the area that you can't cross on foot, move up to the next level and fight an AT-ST Walker with your Lightsaber. Before it's completely destroyed, you can climb into the Walker and use it to cross the area below.

4 ONE MORE WALKER

As you find your way to the X-Wing, you'll find one last AT-ST Walker. Pick up your Lightsaber and hit the Walker from behind. Then, climb into your ship and head for Dagobah.

THE BATTLE GOES ON...

The *Empire Strikes Back* concludes with a great big battle in the snow. Darth Vader is waiting to gull you towards the Dark Side of the Force. You'll lock Lightsabers with the fiercest Jedi in the galaxy at the core of the city. Since the end of the

movie is open ended, the story has been changed slightly so that you can be at least temporarily victorious over Darth Vader, that is, until The Pathway of the Jedi is adapted for the NES.

There's nothing like the snow and the cold of Dagobah.

The X-Wing is the best way to get to the end of the game.

Many actions of the game are very tricky.

NES

TERMINATOR 2™

JUDGMENT DAY

**"There is no fate
but the fate you make ..."**

The T-800 is dispatched from the future with a mission. He must save the life of John Connor, the boy who will grow up to save the world from the killer Cyborgs. The Cyborgs have other ideas, and their Terminator is also on the way. LJN has generally remained true to the movie, and has added very smooth playability. This game has some of the best action of any NES game.

John Connor (Right) (John Connor)

Terminator 2 (Left) (Terminator 2)

Sarah Connor (Right) (Sarah Connor)

John Connor (Right) (John Connor)

STAGE 1

TRAUMATIC TRUCKSTOP

START

The first stage would be easy if you had any weapons. But don't worry, this Terminator is pretty good with his fists. Just don't get surrounded and you'll be all right. The secret is to stay off the ground. From the tops of the trucks you can punch out enemies as they appear. Look for the safe spot. Jump up on the gas tanks of the trucks, then kneel and punch. You can't hurt the biker, but he can mow you down, so be ready to jump when he appears.

STREET FIGHT

So you're on the ground and it's time to die? Throw a few punches, then jump out of there.

ALL SYSTEMS ON-LINE

**TERMINATOR 2
JUDGMENT DAY**

PUNCH AND JUMP

LJN did a good job with the play action in this game. The T-800 punches with both fists, and his movements are smooth. His jumps are easy to control

A necessary defensive move. You're not invincible in this game!

Your fists will serve you well until you get your hands on some weapons.

WEAPONS SYSTEM

What an awesome collection of weapons. The higher your score, the more weapons you can choose from. Start the game with just your fists. In Stage Two you will get the sawed-off shotgun. After Stage Three you will go on-line with the weapons system.

High Score = More Choices

In Stage Three you must avoid killing enemies to get a high score. Shoot em in the knees.

Don't shoot the hospital employees.

If you can avoid hurting too many people, you'll be rewarded with a better weapon.

LIMITED POWER

You get four energy refills, then the game is over unless you get the Continue in Stage Two (Nope, there are no codes). Watch your energy bar!

Be sure to grab those radiatus signs. They will perfectly refill your energy.

One of the cars in Stage Two contains a Continue. Don't miss it - you'll need it.

This car has a Continue.

"I NEED YOUR BIKE...."

No wheels? Not a problem. Just visit your friendly neighborhood hangout and convince a biker to let you use his. He might take a little persuading.

Jump to avoid his punch.

Punch him twice for a hit.

A good hit.

Once you have defeated the Backstop Boss, your target is identified.

END

NES

STAGE 2

RESCUE JOHN CONNOR

The action in this scene is just as fast as the chase in the movie. John Connor is up ahead on his motorcycle and the T-1000 is behind you in the truck—and gaining fast! Dodge the obstacles as you go, then turn and fire at the truck. Shoot the gates and don't forget the Continues.

"I SWEAR I WILL

NOT KILL ANYBODY...."

From here on out the rules have been changed. If you kill anybody your score will be penalized. That means your choice of weapons shrinks. The best thing to do is kneel and shoot 'em in the knees.

This is the only Continue in the game, so be sure you don't miss it. Emerge out of the way so you don't crash into it.

The screwed off charges sure come in handy here. Shoot at the gates just right to make them open in time for you to go through.

STAGE 3 "HOW'S YOUR KNEE, DOCTOR?"

For three years John Connor's mother, Sarah, has been locked up in an institution. Like a modern day Cassandra, she is doomed to know the future but is unable to make anyone believe her. You must break her out.

The card is inside a room through one of the normal doors. Check them all.

Check all the doors. Don't pass up any of the energy or ammo. Remember to look for the radiation symbol.

In order to move from floor to floor you must find the elevator access card. The location is random, so it will take some searching.

SARAH CONNOR

HOSPITAL

STAGE 4 SHUT IT DOWN

TERMINATOR 2
JUDGMENT DAY

You will have your work cut out for you in the Cyberdyne Plant. You must collect the Terminator relics so that they can't be destroyed. Then the plant must be destroyed so that another Terminator cannot be created.

The boards are heavily guarded. Watch your back.

The elevator is a safe spot. Use it when you need a breather. Collect all ten explosives.

After you collect all ten explosives, the camera will tell you where to place them.

STAGE 5 STEEL FACTORY

There are lots of safety hazards in the steel factory, including steam jets, molten metal, and difficult jumps. On top of all that you have to defeat the T-1000 Terminator not once, but three times. You must beat him twice to gain access to the area where the final battle takes place.

END

START

Jump and punch to punch him off.

Watch out for the molten steel!

Miss a jump here and you're toast!

NES

NIGHTSHADE

VORTEX SLAIN!!

Metro City is in dire need of a new hero! Organized crime has descended on the city like a plague. In steps Nightshade. He's a most uncommon hero. Instead of a cape, he wears an overcoat. The people at Ultra and Beam Software have come up with an innovative game which combines elements of role-playing and action. The game has a real attitude. For example, if Nightshade is left standing for too long, he will scratch his head, fold his arms and just sit there looking at you as if he is impatiently waiting your next command. Humor is used extensively in the dialogue. Nightshade won't follow any specific route as he makes his way through the city streets, back alleys, sewers and various buildings of Metro City, but one thing is clear... Sutekh must be ousted!

SPECIAL MOVES

Nightshade has several helpful commands which will help him negotiate his way through Metro City. Nightshade can EXAMINE, PICK UP, OPERATE and USE items he finds or has hidden away in his overcoat. He can JUMP, FIGHT and TALK to people he encounters along the way. SYSTEM allows you to turn the music and sound effects on or off.

Homework. This looks like an ordinary day. What? He isn't?

Our new hero, Nightshade, leaps into action. Put up your dukes!

Nightshade has touched upon the most, perhaps English, part.

Here's the Super Nintendo controller. You'll need it.

There is an element of trial and error in this game. Certain commands will work only if the particular situation calls for them. For example, if there's no reason for Nightshade to jump, he won't be able to do it. EXAMINE all you want, but you may not find anything unusual.

First Things First

What a mess! Nighthade starts off the game in a less than favorable situation. Popularity is obviously not on Nighthade's side as he is tied to a chair in the dark, damp sewers. A single burning candle is the only light source. As if that wasn't enough, there's a bomb on the ground next to him and it's ready to explode! The life of a private eye can certainly have its ups and downs. As long as the ups outweigh the downs, you'll help Nighthade prevail.

ROOM A—BOMB

You will have to help Nighthade search to the other side of the wall before the bomb explodes.

Nighthade can survive if exposed to the blast, but he won't sustain any damage if removed from the wall.

ROOM B—KEY

OPERATE the switch on the left, EXAMINE the mirror to find a key. The expression on the face in the painting doesn't seem anything.

ROOM C—CROWBAR

The only thing to do in this room is to PICK UP the crowbar. You'll need it later.

ROOM D—DRAWERS

EXAMINE both of the drawers to find a flashlight and a screwdriver. USE your key on the mirror to uncover a new Egyptian relic.

ROOM E—FIGHT!

Nighthade can try to talk to him, but he will have to fight the short English guy to proceed. A good piece of advice is to keep your cool then attack him repeatedly from behind. This is your first battle!

ROOM F—?

Try to climb on the stone wall as possible. If Nighthade reaches the top of the window, he will find a flashlight and a key. USE the screwdriver on the mirror and then OPERATE the switch on the right.

ROOM B—OOPS!!

The character fell to the floor because Nighthade took out the screws which hold it to the ceiling. EXAMINE the trap to find a note engraved on a piece of the wreckage. It's a clue!

ROOM A—EXIT

The sewer has stopped flowing because Nighthade flipped the switch in Room E. A great idea seems important. USE the crowbar on the pipe to repair it. Doing this will allow Nighthade to start this journey of the sewers. It's a good thing he has his trusty flashlight with him because it's darker in the lower regions of the sewers.

YOU'VE GOT A BONE TO PICK

EXAMINE the skeleton lying near the mirror to get a bone.

Don't miss the brick marked with an E. It's a secret entrance. Nighthade must go it here.

You Ain't Popular Yet!

Nightshade, like any hero, must earn and hold the respect of the citizens he serves. He can find Vorse's hideout, but to gain entrance, his popularity rating must be filled up at least into the blue section of the gauge. To gain popularity with the people, Nightshade must accomplish several tasks. These tasks will range from defeating several menacing criminals to rescuing cats in distress. Quite a guy, that Nightshade.

Here, buy! Give the dog a bone to make his step cheering the cat!

Gain greater popularity by defeating criminals who threaten others.

Take the ladder which you will find at C6 to rescue the letter of AD. DELIVER the ladder to place it.

Make sure to use steel on top of the letter to spin it down before you go to pick it up.

When you go to pick up the letter, it will scatter down the ladder and sit down next to the old lady. She will be very appreciative of your kind act! You will be awarded an increase in popularity.

FIGHT FOR YOUR RIGHT

Saving Metro City citizens from various evil characters will benefit your popularity rating. The amount of popularity that Nightshade will gain will not always be the same. Always keep the gauge filled into the blue.

Defeat the Ninja by the dress shop. Watch the floating shield!

The Ninja isn't going to be dropping for a direct attack.

It looks like there's a crime in progress. Save Grammy!

"I'VE GOT A HIDEOUT. NOW WHAT?"

Continue to visit all of the areas and defeat any and all enemies which Nightshade may encounter. He will increase his popularity and establish himself as a hero with more and more citizens. If you are unfamiliar with a certain screen, it would be a wise decision to use the EXAMINE command to search for unusual objects. This will be crucial in progressing through the game. Obvious and blatantly obvious hints will be offered to you when you EXAMINE various screens.

Take a walk to Egan's School!

GET A CLUE

Nightshade is no different from any other role-playing game hero in the fact that it will always benefit him to talk to everyone he meets. Converse with cooks, vendors, bums and old ladies to uncover interesting and valuable information. However, you'll need to direct your inquiries to more than just people—talk to the animals and some doors, too. They talk back!

It looks like there's a crime in progress!

OPERATE each drawer in the Newspaper Archives to open them. Most will be empty, but some will contain newspapers with informative headlines.

Pay off the vendor selling out three times. He'll grant you access to the back door of the club. His brother works in the kitchen.

KEY TO THE CITY

NIGHTSHADE

Use this "locator" map of the streets of Metro City to guide Nightsshade on his dangerous quest to take out the evil Sutchih. The map is not a complete guide to all of the screens which Nightsshade will encounter, but it will help you to get from point A to point B without getting lost. Some of the screens don't "flow" together, so it's fairly easy to get disoriented.

TIPS AND TARGETS

Some of the above screens will have more cut-ins or more thinking involved. Below are brief descriptions of what to expect on these screens. Keep in mind, these screens lead to other places as well.

GET CAUGHT? DO WHAT ANY SUPER HERO WOULD DO... ESCAPE!

When Nightsshade's Health level bottoms out, he will be in danger of the game being over. There are a total of five "impending doom" scenes which act as Continues. You can get out of four, but the fifth is the end.

OPERATE the left switch when Nightsshade's level one between the levers.

PICK UP two of the pipes and USE one on the other to escape the spiked wall.

Back up to the top panel, OPERATE the metal to cut the rope, JUMP the gap, OPERATE the switch and exit the room.

COLLECT M CARDS

Puzzle Cards are hidden in every section of McDonaldland. When you return a certain number of them to their rightful owners, you'll be able to move on to the next stage. If you collect every Card in a given stage, you'll earn special bonuses.

Collect Puzzle Cards and take them to the McDonaldland character that oversees the stage.

VISIT THREE TYPES OF ACTION SCENES

STANDARD STAGES

Run, jump and search for Puzzle Cards in the many areas of McDonaldland. Ronald McDonald is counting on you to find his Bag of Magic.

Search high and low for McDonaldland Puzzle Cards and take 'em back to a McDonaldland character.

SECRET PLACES

By unzipping Zippers, you can slip into Secret Places and clean up on special items. Stand in front of the Zippers and press the B Button.

Zippers act as the opening to new-packed Secret Places. Stand in front of them and press the B Button.

BONUS GAMES

When your Golden Arch total exceeds 100 and you finish the current course, you'll be sent to a Bonus Level to earn as many as five 1-Ups.

Work your way up to the top of the Bonus Level, then unwrap an area filled with 1-Ups.

RONALD NEEDS HELP!

M.C. KIDS

The two-player alternating action starts at Ronald McDonald's Clubhouse stage. Ronald will tell you of his Bag of Magic woes and ask you to retrieve at least four Puzzle Cards from this six-section stage. Your first stop is the Garden, where you can get acquainted with McDonaldland obstacles.

Ronald's Clubhouse-1

DUAL SPRINGBOARDS

By bouncing on both Springboards you'll be able to collect all of the Golden Arches. Spin upside down to reach the top Springboard.

THE BIG BOARD

You'll get a big spring out of the Super Springboard if you carry a Block while you bounce. The extra weight will add to the bounce of the board.

FLIP, FLOP AND FLY

If you hit any of the four Reversers in the air near the end of the course, you'll be thrown back to the beginning of the area, and over and over.

SPACE FILLER

Throw a Block into the moving dotted-square pattern to make scoring platforms.

PUZZLE CARD

Press and hold the B Button and run over a Spinner. When you flip over to the other side, you'll be in prime position to grab the Puzzle Card. Then, if you're feeling adventurous, you can explore the rest of the area upside-down.

CROSS THE ENDING LINE

There are Golden Arches that slide back and forth on the Ending Line. If you hit the Arches, you'll earn extra Arches, the number of which depends on how far to the right the Arches are when you touch them. If they're all of the way to the right, you can grab some special Magic Brick which will come in handy much later.

SPECIAL ITEMS

Before you explore McDonaldland you should know about some of the most important things you'll find there. These items can help you make your way through the many levels of the land and collect all of the Puzzle Cards.

GOLDEN ARCHES

The Golden Arches can be found all over McDonaldland. Collect 100 of these glowing symbols and, when you leave the current stage, you'll be sent to a Bonus Game where you can earn as many as five 1-Ups.

1

1-UPS

Pick up the 1-Ups hidden throughout McDonaldland and you'll have more chances to explore the land and find Ronald's Bag of Magic. Collecting 1-Ups is your key to success at advanced stages.

MICK MACKER

This unique item can switch your character from Mick to Mack or Mack to Mick. Just touch it and your character will transform into his partner. You'll find one in every Bonus Game.

REVERSER

Reversers feature floating arrows that point to the left. If you touch one, you'll be sent sailing to the left, all of the way to the starting point of the area. They do come in handy in a few rare circumstances.

SPINNER

Spinners are at either end of some platforms. Run over them while running at super speed and you'll flip over to the other side. This reversal of gravity will allow you to easily explore the levels' upper reaches.

ZIPPER

You can enter Secret Places by walking through these odd openings. Place your character in front of a Zipper, then press the B Button to unzip the Zipper and enter the area.

NES

P

RACTICE MAKES PERFECT

Gopher Crow, the second section of Ronald's Clubhouse stage, is a great place to practice your running and jumping skills. Climb up to the top, then

leap from platform to platform to the area over the Ending Line. You'll find a Zipper which leads to Secret Place that contains plenty of Golden Arches.

Ronald's Clubhouse-2

ONE FOR THE ROAD

Jump to the left from the high platform and take away Blocks in the air to clear the way to a 1-Up.

FLOAT TO SAFETY

There's a nasty Goomba in the water. Roll over the floating fish as a Floating Block.

FLY TO THE SKY

There's a Zipper high in the sky. Leap on the platform to the Zipper in the upper right area and press the B button to enter a Secret Area.

Ronald's Clubhouse-3

You'll find a dozen Golden Arches, a 1-Up and a Puzzle Card in this basic section. It's called "Leaf Leaves" because of the floating leaf-like platforms in the area. Use them to get to the top.

LEAF LEAP

Leaf Platforms float slowly back and forth. Carefully jump from one to the next.

ENEMIES RETURN

Watch out if you knock enemies out, because the general can return, the enemies will reappear.

**B**

IRDIE'S TREEHOUSE

Once you've returned to Ronald's Clubhouse with at least four Puzzle Cards, Ronald will show you the way to Birdie's Treehouse in the clouds. This lofty level contains six challenging sections, each with a Puzzle Card. Explore the clouds and mountain tops and return to Birdie's Treehouse with at least five Puzzle Cards. When you reach that Card total, Birdie will show you the way to Crimace's Highland so that you can continue your search for Ronald's Bag of Magic.

You'll spend a lot of time in the clouds while exploring Birdie's Treehouse level. Watch your step.

The ice is very thin in some areas. If you pick up a heavy Block, you could fall through.

The Puzzle Card is one of the sections is directly above the Ending Line. Collect it and stop.

Sometimes you won't be able to see where you're going in the clouds when you're out for holes.

S

SEARCH EVERYWHERE

M.C. KIDS

Once you've been through a few sections of Ronald's Clubhouse stage, you'll be ready for more challenges. There are quite a few useful items in the Mountain View section, including a second-breaking eight 1-Ups. Reach the 1-Ups by climbing and leaping over the top of the screen to the right edge of the area.

Ronald's Clubhouse-4

PLATFORM PLUMMET

These Platforms sink when you step on them. If they drop too low before you leave a chance to leap to the top, leave the immediate area and return. The Platforms will reset to their original position.

FLIP AND COLLECT

A lot of the Golden Arches in this section are near the top. You can collect them by flipping over the Spinner and jumping upside down.

BONUS BOUNCE

Collect enough Arches by hovering on Spring Boards and you'll end up in a Bonus Game after you cross the Ending Line.

OVER-THE-TOP PLAY NETS A TON OF 1-UPS

You can get to the eight 1-Ups in the upper-right area by starting at the upper-left area and jumping onto platforms above the top of the screen. Although you won't see your character, you'll know where he is by keeping an eye on the center of the screen.

Jump onto the Big Springboard and ride the Special Block.

Use the Special Block to fill the moving slotted lines.

Hit the Reverser and fly to a high perch near the beginning.

Jump up to the top of the section and keep out of view.

When you get to the upper right area, you'll earn eight 1-Ups.

By putting a piece of tape on the top, center part of your TV screen, you can easily track your character's movement.

G

GRIMACE'S HIGHLANDS

The land of Grimace is made up of six areas that are broken into two sections. After you've returned to your big purple pal with at least three Puzzle Cards from the first four areas, he'll make paths that lead to the last two areas. Collect two more Puzzle Cards in those challenging areas and Grimace will take you to the Professor's Workshop. You're closing in on Hamburglar Mick and Mack! There's only three more levels to go. Collect 1-Ups whenever possible and keep going!

A Floating Platform will be very useful when you're exploring a scary section of Grimace's Highlands.

Puzzle Cards can be anywhere, even in the very high branches of the trees. Explore every sector carefully.

When you see a Zipper, make sure to open it and explore the area on the other side.

Small Clouds act as moving platforms. Ride them to the upper reaches.

NES

TAKE YOUR TIME

There's no time limit in this game. Take it easy and try not to make any silly mistakes. The Hidden Glen houses quite a few mean creatures. Watch for them and hit them with Blocks if they get too close.

C'mon guys!
Ronald's counting
on you to bring
back his Bag
of Magic!

Ronald's Clubhouse-5

This may be easy for you now, but wait 'til you get to my Hideout!

LIFT WITH LEAVES

Leaf Platforms drop endlessly in this area. Jump from one to the next and make your way up to the log in the air. Then run to the right and collect a dozen Golden Arches.

GO FOR GOFORT

A Gopher walks back and forth on top of the big tree to the right. Take a Block with you and knock off this bossy creature before you jump to the tree.

PROFESSOR'S WORKSHOP

If you collected a Puzzle Card for the Professor's Workshop in Ronald's Clubhouse level, you'll only have to find three more Cards in the five Workshop sections before you can blast off to Cosmo's Retreat on the Moon. These sections feature a wide variety of terrains. You'll visit a land of sand, an overgrown forest and

a huge ship before your time in the Professor's Workshop is over. You might learn a few tricks from this great inventor. Ask him for advice.

You'll go way under ground to search for a Puzzle Card in one of the Workshop sections.

When you come across a Floating Platform, climb around with you. You may need it.

The battle on the boat is big one. Bring a Block with you. It could come in handy.

COSMO'S RETREAT

Cosmo has built a base on the surface of the Moon. You'll have to collect all four of the Puzzle Cards available in order to get off this rock. While you're exploring Moon tunnels and caves be aware that the gravity on the Moon is entirely different from the gravity on Earth. When you jump here, you'll fly so high into the air that you may miss your mark. Don't let this added athletic ability throw you off.

You can jump off a special Moon Rock in one section and earn some extra points.

You can get into an enclosed chamber by flying through a hole in the wall.

Springboards send you flying in lower gravity. Avoid them if you're going down.

TWO CARDS, ONE LEVEL

You'll find two Puzzle Cards in this section. One of them goes to Ronald's Clubhouse and the other belongs to the Professor's Workshop.

M.C. KIDS

Ronald's Clubhouse—6

CARD COLLECTION

Climb up and onward to get Ronald's Puzzle Card.

BONUS BOUNCE

There are 144 Golden Arches in this area. If you collect enough of them so that your total is at least 100, you'll enter a Bonus Game after you complete the area.

BOGUS BLOCKS

The four Blocks at the bottom of the section hide Reversers. If you try to take the Blocks, you'll reveal the Reversers and be thrown back to the starting point of the area.

BONANZA

Arrows flash on the four Blocks in the Bonus Game. If you jump to the Up Arrow, you'll climb. If you don't, you'll sink.

If you hit all of the Up Arrow Blocks, you'll climb smoothly and easily to the top and get yourself in the position to earn 1-Ups.

Once you climb to the top, you'll enter an area with five 1-Ups. Collect them in the right order and you'll get an A!

H AMBURGLAR'S H IDEOUT

Hamburglar's Hideout is a world of fire and ash. There are many dangerous areas and many hard to reach spots in the volcano. If you're low on lives, you should return to Ronald's Clubhouse and stock up on 1-Ups in the Mountain View section. Then return to the Hideout and keep fighting. At the end, you'll get the Bag of Magic and save McDonaldland.

The Fire Bridge will start burning as soon as you set foot on it. Get moving!

Ash falls from the ceiling. Avoid contact with this molten material.

You'll have to throw off some pretty tricky moves to survive in the Special World.

S PECIAL WORLD

If you've collected every card by the end of the game, you'll be sent to a special world that has many surprises.

We've made it to the last chapter buddy. Let's get out there and stop Hamburglar from taking over McDonaldland!

SUPER TENNIS

■ FROM AGENT #015 Super Player

Our agents have discovered how you can give your opponents a run for the money in this realistic tennis exercise with a two-controller code. While you're in the middle of a match, press the Select Button to access the score and stats. Then, on Controller II, press the R Button twice, Left on the Control Pad, Down on the Control Pad, the B Button and the A Button, then press the L Button twice. You'll hear applause, indicating that the code has been entered correctly. Press the A or B Button on Controller I. Several letters and numbers will appear on the screen. They signify the abilities of a player in the match.

Press Select to see the score and stats. Then, on Controller II, press R twice, Left, Down, B, A, L and L again. Next, press A or B on Controller I. Several digits and numbers signifying player abilities will appear.

If the number at the top of the screen is a 0, the digits relate to the abilities of Player One. If it is a 1, you're looking at the abilities of the player on the other side of the net (Player Two in a competitive match). If the number is a 2, these are the abilities of Player One's partner (Player Two in a cooperative doubles match) and if the number is 3, the digits signify the abilities of the second player on the other side of the net (Player Two's partner in a competitive doubles match). You can change the number at the top of the screen by pressing the A Button.

The letters and numbers which signify the abilities of a player are arranged in four rows of eight digits which range from 0 to 9 then A to F, 0 being the lowest and F being the highest. The numbers and letters on the top row relate to the player's strength and speed. Digits on the second and third rows relate to the player's intelligence (only if the player is computer-controlled). Our agents have not discovered any significance for the digits on the fourth row. If you'd like to change any of the digits, single them out with the Control Pad and tap the X Button. Then press the Select Button to return to the game.

The first set of digits that you'll see signifies the abilities of your own player. Press the X Button to change the digits. When all the digits on the first row are 7, your player will be in top form.

SUPER MARIO WORLD™

■ FROM AGENT #958 The Big Payoff

Dragon Coins can be very valuable when they add up to 1-Ups. You'll earn a 1-Up by collecting five Dragon Coins in a single course. If there are more than five Dragon Coins to be found, you'll earn another 1-Up for each additional Coin. The Cheese Bridge Area has potentially more than five Dragon Coins. If you pass up at least one of the five Dragon Coins in the main course area, you'll find additional Dragon Coins after you fly into a new area with Yoshi's Wings. Once your Dragon Coin total is five for the course, every additional Dragon Coin will net you a 1-Up. If you collect all of the Dragon Coins in the main area, though, this new area won't contain additional Dragon Coins.

Pass up one Dragon Coin in the Cheese Bridge Area, then collect the others.

Pass a Block to uncover Yoshi's Wings toward the end of the course.

Yoshi's Wings will help you avoid any enemies in this area.

Collect the Dragon Coins in this new area and cash in on 1-Ups.

SimCity

FROM AGENT #414 Down Sizing

Airports, Harbors and Stadiums can take a lot of room, but they are essential parts of a growing city. There is a way to decrease the size of these public facilities, though, without decreasing their effectiveness. When you see an airplane flying over an Airport, Harbor or Stadium, quickly select the disaster icon and choose an airplane crash. The plane will go down on the targeted building and the ensuing fire will burn most of it to ashes. As long as one small section of the building remains intact, the facility will continue to be as effective as it was in its original form.

Trigger a plane crash over an Airport, Harbor or Stadium. Most of the structure will go up in flames. As long as there is at least one remaining piece, it will be as effective as the original structure.

Zone Stacking

When most residential zones begin to develop, the buildings first show up as sets of small modules. If you're tight for space, you can build these modules individually, leaving space available for more zoning. While this method does use the space effectively, it also ensures that the module housing will never develop into something more substantial.

If you're more interested in adding zones than developing them, you can build individual modules in low-level residential zones to set the way for more zones.

THE ADVENTURE OF CRYSTAL NINJA™

FROM AGENT #135 Hidden Rooms

In searching the Warlock Zones of this epic adventure, our agents have discovered four item-packed secret areas. You can open the entrances to these hidden rooms by hitting certain obstacles with your weapon. In Warlock Zone I, there's a stone marker directly below the big bell. Hit the marker and it will move to reveal a hole. When you dive into the hole, you'll land in a room full of rocks and special items. If you're equipped with at least three pairs of Straw Sandals, you'll be able to jump over the rocks and collect the items.

Once you've hit the stone marker under the bell in Warlock Zone I, you'll discover the entrance to an item-filled area.

In Warlock Zone II, you'll find a locked door just to the east of the stupa. If you break it open with your weapon and walk in, you'll discover another item hideaway.

East of the stupa in Warlock Zone II, there's a locked door which you can hit to reveal the entrance to a secret area.

There are secret areas in Warlock Zones IV and VI which you can discover by hitting certain walls in the villages. The hidden entrance in Warlock Zone IV is on the side of a house and the hidden entrance in Warlock Zone VI is between two stacks of boxes. See the photos below for exact locations.

Hit the house in Warlock Zone IV to reveal the entrance to a secret area.

Hit two stacks of boxes in Warlock Zone VI and hit the wall between them.

MEGA MAN II

**A NON-STOP
BATTLE WITH
FAMILIAR FACES!**

When will those dastardly robots ever stop? We hope they never do! However, don't tell that to Mega Man. Our mechanical hero is back in the saddle again and riding high in the newest Game Boy installment of the ever-popular game series. This new Game Boy game features various boss robots from Mega Man II and III for the NES. As usual, that rat Dr. Wily will be waiting at the end. Mega Man's Arm Cannon is primed and at the ready!

FAMILIAR WEAPONS AND... SOMETHING NEW!

If you're familiar with the Mega Man games which have graced the NES, you'll be familiar with the weaponry which Mega Man will be able to access by defeating the bosses in this game. Mega Man also has the use of his trusty friend, Rush. A new character makes his first appearance in this game. Quinter will show up after defeating eight bosses. If you defeat him, he'll let you have his special device, the Sakugaran.

ORDER OF ATTACK IS THE KEY

As usual, when Mega Man defeats one of the bosses, he gets and learns how to use the weapon which the boss wielded against him. We've provided the best order for defeating the bosses. This will allow Mega Man to take full advantage of each special weapon. It's often very difficult to beat some bosses without the special weaponry.

MEGA MAN II

1) CLASH MAN

Once considered to be a very awful robot, the converted Clash Man now resides in his hair-raising Clash Bombs.

2) METAL MAN

A full brain, brain-blaster, Metal Man will set out to quickly slice our Mega hero to pieces. Don't let a legged!

3) WOOD MAN

Much more than just a glorified plank of wood, Wood Man's leaf attack can send Mega Man spinning if he's not prepared.

4) AIR MAN

Not just your ordinary bag of wind, Air Man attacks with tremendous tornado twisters which can do a lot of damage.

CLASH MAN

STAGE

Various ladders, ledges and moving platforms dominate the terrain. The majority of movement is vertical in this stage, so watch where you step and fall! You could land on any one of the deadly spikes and lose a precious life. Look out for the Prop-Tops near the end of the stage.

BOSS

PRECARIOUS PLATFORMS

Mega Man must ride these wobbly platforms to make it through this section of the stage. Don't fall off of the upper moving platforms because you may fall off the way to the bottom and have to traverse the slide-up again. The floating enemies would love that!

FILL UP ON ENERGY

Make sure you run Mega Man up all three ladders in this section. The ladder on the right has an Energy Converter at the top. The middle ladder will yield a large Power Up ball which can be very useful. The ladder on the left takes you to the next section.

TWO-SIDED ATTACK

Be careful when entering the two gaps. Floating enemies will come out of both ends of the pipes and will try to lock Mega Man into the pipe—no kind move. Shoot the enemies and then jump quickly over the gaps, or more enemies are sure to pop out soon.

CLASH MAN HEATS UP

Clash Man moves in a fairly definite pattern. He will always jump when you shoot. Jump and then shoot while you're in the air. Avoiding Clash Bombs is important, too. Slide under him to get away from the blasts.

Shoot rapidly while you're in the air to make sure the bullets from your Air Cannon come in contact with slippery Clash Man. Avoid the bombs!

THEY KEEP COMING

The floating enemies in this stage are unlike most other enemies. They will keep coming back even after you've defeated them. There seems to be a constant supply, but luckily they're not too quick. Mega Man has to watch out: where are they all coming from?

GAME BOY

METAL MAN

STAGE

Starting off on a conveyor belt is a clue as to what lies ahead for our main man in this stage. Dr. Wily has created a seriously solid structure for Metal Man to call his home. Mega Man will

have to survive falls, grinding gears and spiked magnets. He will need to traverse the entire length of Metal Man's abode to reach and destroy him.

START

FREE-FALL CRISIS

Mega Man must survive three "leaps of faith" to get past this section. If Mega Man comes in contact with one of the super spikes, he will lose a life. It won't matter how much energy he has. The super spikes will penetrate any material (except in metal) or roll off! Study the maps to discover your route. Remember, Mega Man has the ability to change direction in mid-air.

BURROWER ROBOTS

The constant barrage of Burrower robots is good and bad. It's good because Mega Man can bounce out of them a way and just fire at the Burrowers. Loads of Power Ups are sure to appear. You may even be lucky enough to be rewarded with a rare 1 Up! Grab them and then move on. However, proceeding is difficult. The large number of Burrowers present on the screen makes them very hard to avoid. Being on a conveyor belt does not help, either. Move carefully. Watch out for the spiked magnet in the middle of the section.

WOOD MAN

STAGE

BLACK-BALL BAT

The major difficulty in dealing with the Black Ball Bats is that they usually will attack in groups. They are slow, but each bat will take two hits to be defeated. You'll only be able to hit and destroy them when they're flying.

START

CARROT-TOSSIN' RABBIT

The Rabal Rabbits will hop into the playfield and toss carrots at you. Anticipate when they will show up and fire all around instead. It's often difficult to defeat them because they require quite a few hits and you may have been steering you on well.

COOK THE HOT DOG!

The key to defeating the Hot Dog is speed and precise parrying. Stand just on the edge of the small ledge. Jump and fire rapidly when the Hot Dog whizzes by. Missing leaves levels. Be patient because the Hot Dog requires multiple hits to be defeated.

Enter this pseudo-jungle and find some very tough enemies. Make your way down to the water section for an even greater challenge. If you have Rush Marine, you'll be able to go under the water and then it should be no problem at all. The last third of the stage is like a mirror-image of the first part.

RUSH MARINE

It is always best to call upon Rush Marine if there is water present in any given stage. Rush the Start Button to access your submachine and then choose "RM." Press your list of weapons.

Press the B button to call up Rush Marine then keep in mind take on under water or on ice. Keep a close watch on Rush Marine's power meter—you can't use him forever because the energy will run down unless you recharge it with an Energy Pad.

STOP THE MAD GEAR CLOWNS

The Mad Gear Clowns want to think they're so funny when they find themselves being blasted into oblivion! When approaching a Gear Clown, jump and shoot the gear a few times. Finish the gear when it falls and shoot the clown with a single shot. Pay attention to the conveyor belt direction.

MEGA MAN II

BOSS

TOO NARROW? SLIDE!

Mega Man's creator, Dr. Light, taught him the sliding technique before his first NES adventure. Mega Man needs to use that skill in this section. Hold Down and press the A and B button at the same time. Mega Man will slide in the direction he is facing.

A CLASH WITH METAL MAN

Metal Man will be very upset that Mega Man has penetrated his fortress and reached his lair. Use the Clash Bombs which you obtained from Clash Man. You will only have a few Clash Bomb shots, then you'll have to switch to the Arm Cannon to finish him off.

Metal Man frantically bounces up and down throwing a barrage of blazing blades. Bomb him a few times.

SLIDE UNDER THE CHICKENS

Wood Man has let the *Evil Chickens* out of their pen and they're waiting to tear heading straight for Mega Man! It's usually best to avoid the first *Evil Chickens* by running or sliding under them when they leap. They will leap at random intervals. If you time your moves properly, you should be able to get by all of the chickens without suffering much damage. If you prefer, you can try to blast the chickens, but they usually get to you before you can get off enough shots to finish them all!

BOSS

THROW THE BLADE TO WOOD MAN

It makes sense! Wood is usually cut with some type of blade. Wood Man appears to be no different from any other type of wood. A few good blasts with the Metal Blade should reduce Wood Man to small stump status. If you have more than half of your Energy gauge filled, you will have no problem with Wood Man. Fire at him when his shield is down.

GAME BOY

START

BIG AIR TIKIS AND LITTLE BIRDS

The floating Air Tikis will appear when you get near them. To see their location, jump out to the right and turn around in mid-air. They will appear. Jump onto them, but watch out for the spikes they look like horns. They aren't instantly deadly, although they will do considerable damage if involved. Throughout the Air Man stage, birds will fly into the screen carrying eggs. They will drop the eggs. The eggs will hatch several small, pesky birds. It's almost impossible to defeat all of the small birds, so get the egg and the bird that carries the egg before it even has a chance to hatch.

HIDDEN ENERGY

There is a large Power Up ball hidden behind the cloud in this area. Make sure to get it. The spiggy enemies will come out near this area. Shoot them and grab the Power Up; they leave behind

It's a cloudy day as Mega Man takes to the skies in search of that blow-hard, Air Man. The clouds can easily trick you into going in the wrong direction. Mega Man knows that Air Man's Air Shooter is a powerful weapon.

MORE FAMILIAR FACES AT THE HALF-WAY POINT!

OK, you've beaten the first four bosses. Now you have to go through four more! The new bosses have all made an appearance in Mega Man III on the NES. As with the first four, there is a certain order in which they should be defeated. Start off with Needle Man. When Mega Man hops into a warp transporter he will be whisked off to that stage.

4) TOP MAN

This is definitely not child's play! Top Spin attack will leave Mega Man dazed!

2) MAGNET MAN

The magnetic field surrounding Magnet Man is a force to reckon with.

3) HARD MAN

He is built about as solid as they come. It's difficult getting through his thick suit.

1) NEEDLE MAN

A versatile fighter, Needle Man takes pride in his various methods of attack.

NEEDLE MAN STAGE

Long, narrow passageways and more enemies will confront Mega Man as he sets off to challenge Needle Man. The going won't be easy, though. Needle Man's cohorts have positioned themselves well in this stage. Be especially careful of the gated cannons and pesky Hard Hoes.

GIVE NEEDLE MAN AIR

Use the Air shooter which you obtained from Air Man to defeat Needle Man. Make sure you deliver a blow every time. If you run out of air, switch back to the Arm Cannon.

MAGNET MAN STAGE

Don't let the flying magnets in the first section of the stage pick you up—they will do damage. The shading in the layout of the Magnet Man stage can cause it to be tricky. It is fairly easy to get led astray. Use Rush Jet and Rush Coil to get through the difficult mid-section of this stage.

MAGNET MAN HATES NEEDLES

Let Magnet Man have it with the Needle Cannon. Don't waste your shots when he's flexing his magnetic muscles, though.

SHOOT BEFORE YOU JUMP

After passing by the Air Tubs, Mega Man will come upon the electrifying Lightning Lards. It's necessary to shoot them many times to destroy them, so jump up and shoot as fast as you can! If you just waited for them to come around, they will cast small (but powerful) lightning bolts at you.

MEGA MAN II

COVER AIR MAN WITH LEAVES

Wait for Air Man to fire off the first sound, avoid his shots, then unleash the wrath of the Leaf Shield attack that you obtained from that piece of pulverized pulp, Wood Man. Air Man's tornado blasts will deflect the leaves, so wait until it's clear.

TO A

BOSS

HARD MAN STAGE

Hard Man feels safe in the solid foundation of his earthen retreat. He shouldn't! This stage features rocky terrain and some serious enemies. Watch out for the Trap Snappers which leap up from their cages. Mega Man can use his ability to slide to get past these traps.

MISSILE TO HARD MAN

Deal Hard Man with Magnet Missiles. If he jumps, just slide underneath him then turn to shoot again.

TOP MAN STAGE

The first part of the Top Man stage features a water section. The disappearing ledges can be very tricky to negotiate, so use Rush Marine to get by this area. It takes many hits to destroy the Bobcats. Jump over the bouncing ball that they shoot out. Make sure that you get the easy 1-Up by using Rush Coil.

KNUCKLE TO TOP MAN

Give Top Man a taste of the Hard Knuckle. Jump over Top Man as he spins across the screen and then let him have it. POW!! Right in the knose.

FOLLOW DR. WILY INTO SPACE!

When Mega Man dusts off the eight bosses along with Qwert, he will chase Dr. Wily into outer space. Wily and his crazy cohorts have constructed an immense space station that is orbiting the planet. Mega Man must forge his way through it at all costs. Various enemies from previous stages are sure to appear here. Who knows what Wily has up his evil sleeve!

Qwert
Qwert's super
power is his
only vulnerable
area.

Now you've got
Qwert's super
power, the
Bobcat.
What will you
do with it?

You're doomed this time, Wily!

HIGH STAKES™

The stakes really are high in the latest gambling game from Electro Brain. It pits undercover agent Pete Rosen against some of the meanest Mafia mobsters ever, and he has to beat them in their own games. Fortunately for Rosen, the game features both challenge and practice modes, so rusty players can hone their skills playing Black Jack, Slots, Video Poker or Craps before taking on the five cool kingpins. High Stakes is also battery backed, so Rosen can take a break between gambling paces and return to roast those who remain late. The odds are against him because he has to go to their own clubs and tackle them on their own turf. But he's a top cop with a cool and calculating mind—and he has some tricks up his sleeve, too. Lady Luck just might be on his side.

MOBSTER MUG SHOTS

MACHINE GUN MAX

Max Max is the dirty private investigator of Club M. G. Max, and he calls all the shots in his joint. They don't call him Machine Gun for nothing!

SUITCASE SAM

Sam is always on the move—don't want to be why he carries the strange suitcase. He's a double dealing card sharp, so watch for under-the-table plays!

HITMAN HARRY

Harry is a hitman, all right—he always seems to know when to let and when to stand. His look at the Black Jack table is calmly resolute.

LUCKY LOU

Lou's just a little bit too lucky to be on his own. You'll love to pull a few tricks out of your bag to get the best of this law life.

AL COLOGNE

Do you smell it yet? That's not Al Cologne, the olfactory mobster who smells out the heavy hitters. You'll never be a high roller to beat him!

CASE OUT THE CASINO

Play all of the casino standards in the Practice Mode to learn the ins and outs of big time gambling, from playing the slots to shooting craps. When you're just practicing, it's no big deal when the chips are down!

The mobster make mounds money at Black Jack. Learn to figure the odds.

There's no skill involved in playing the Slots—unless you plan to cheat.

Select the cards you want to hold, then lift your hand from the video deck.

When you're hot, you're hot, when you're not, you'll sooner part the dice.

KEEP SOMETHING UP YOUR SLEEVE

There's a shady character lurking in the alley, and, boy, does he have a deal for you. You know that the mobsters are duty dealers; you can even the odds by keeping each hidden up your sleeves. Play them when the time is right!

Pass! ... Let me help you out there pal.

SWAP HAND

\$1000

As your opponent is sitting pretty with hot cards, is he? You don't have to just read them real wimp. Use the Swap Hand card to take his winners and leave him with your losers. It's an expensive option to buy House Shady, but it's a fun to turn the tables.

SWAP CARD

\$750

If you need just one card to complete a winning hand, but that card happens to be in your opponent's hand, you can take it right out from under his nose by using the Swap Card option. You can buy a maximum of two Swap-Card options from Shady at a time.

\$750

It's a good idea to keep an ace in the hole, especially when you're playing Black Jack. They're ace of Shady's less as passive offerings, but you can hold only two at once. When you have the choice, go back and buy more to hold in reserve.

\$7500

Jokers are, of course, the most versatile cards in the deck. You'll draw one from the deck occasionally, but you'll also have an opportunity to buy them from Shady when you're about to make a round of draw poker. Buy as many as you can afford to.

\$500

Shady has a few tricks up his sleeve, too. They're less expensive than Aces and they come in handy whenever you need a quick ten points. Keep them hidden up your sleeves and use them to make the big plays. But be ready before you use any of your cheat cards.

\$250

Knowing what card is coming next gives you a definite edge in gambling. Buy See Next Card options from Shady, and we'll help you plan your next moves in Black Jack and Draw Poker. The price varies depending on the game you're about to play.

SEE DEAL POW!

\$250

What card does the dealer have down? Find the guesswork! The dealer shreds on 17, so use a Deal Down card that lets you peek whether or not he has a 10 on top with them before you play Black Jack.

\$1000

\$500

The Seven and Eight cards increase your chances of winning, but they also give worse results.

CHECK THE SCORECARD

As undercover agent Rosetti, you will challenge each of the ringleaders at four games: Black Jack, Video Poker, Slots, and Draw Poker. When it comes to the final showdowns, if you can't outscore them, they get off scot free.

At the end of each round, the game will tally the number of winning hands and show you both your score and your opponent's.

THE LAST DRAW

After three rounds of other games, it's time for the Showdown with each mobster. You'd better be a skilled Draw Poker player, because that's the name of the game and it's your last chance to put the crooked knippers behind bars. Play to win!

BEST BET

The Showdown games are your last chance to beat the big guys at their own game.

Showdown, a low drawing bet, and some well-timed cheat cards can give you the winning edge.

Shady might be an unruly character, but his merchandise will be very useful to you when you gamble with the crooked boss of this league. Pick over the dough.

Don't waste your cheat cards. Wait until you have the makings of a killer hand to pull them out of your sleeves.

WHERE CAN I FIND THE HEALING POT?

Tom Liotto

To find the first Healing Pot and make Nasti's journey in Lakeland easier, you must go to the Gold Cave. From the entrance, go left, up, right and up again. Now take the first left you come to and the first way up. Once again take the first left, then continue to follow the path until you reach the Treasure Chest. Inside you'll find the first Healing Pot, which increases your Health Points.

From the entrance to the Gold Cave, go left, up, right, up, left, up and left. Now follow the path.

Follow the path until you reach the Treasure Chest inside is the Healing Pot, which raises your HP.

HOW DO I RESCUE GILES?

Before you can rescue Giles, you'll have to find him in the Gold Cave. Start at the entrance and take the following path: go left, up, right, up, left, up, left and through the door. Then turn right and

go through the next door. Now continue by moving right, up, right, up and then take the door. Giles is outside on the mountain top, and he is injured. Give him the Healing Pot and lead him back to Ailand through the Gold

Cave. On the return journey, don't expect Giles to keep up with your pace. He moves quite slowly. After all, he has been sick. Don't worry about protecting him from monsters, however, as Giles is invincible to attack.

To find Giles, follow the winding route through the Gold Cave as indicated in the directions above.

Giles is on the mountain top and he is injured. Give him the Healing Pot that you found in the cave.

Now return to the cave, taking Giles with you. Bring him back to the village of Ailand.

DRAKKHEN

HOW DO I GET PAST THE SHARK?

The first way to get past the shark is to place a character at the foot of the bridge facing the castle. When the shark passes under the bridge and appears on the right side, sprint across. The second method is to wade into the water to the left of the bridge. Gently tap the controller to the right when the shark goes under the bridge. When the shark appears on the right side of the bridge, run into the castle.

At the instant the shark fin shows up on the right side, run forward to the castle.

Wade into the water. When the shark goes under the bridge, move onto the bridge on the right.

HOW DO I GET PAST THE ROAD?

When you try to cross the glowing road of arrows east of Hoedshen's Castle in the middle of the map, monsters appear and block it. There are two ways to fool the monsters and cross the road. First, you can turn around and walk backwards toward where the monsters wait, proving the theory that what you can't see can't hurt you. The second method is to circle around to the north and cross over to the eastern side.

To avoid monsters on the Glowing Road, face West and walk backwards to the East.

The second method to cross the road is to circle around to the north before heading east.

HOW DO I FIND THE GOLDEN CLAW IN THE PYRAMID?

The Golden Claw is hidden deep in the Pyramid. If you go hunting for it, make sure you are at level 21 or above, because magic spells do not work in the basement areas where you must go. You'll have to fight your way through. Once you enter the Pyramid, walk north to the middle of the first intersection. There you will fall into the pit to the first basement. Now search the lower right section of the basement to find a hidden staircase to the second basement. In the second basement, follow the path until you find the coffin on the star. Search the

HOW DO I BUILD EXPERIENCE QUICKLY?

Building up your experience levels is one of the most important aspects of Dragon Warrior II. Unfortunately, building experience points seems to take forever. Since the only way to build your experience is by defeating monsters, what you need to hurry up the process is to meet more monsters. Go monster hunting once you have the Golden Claw. You'll meet four times as many monsters as you would without it. Follow the instructions above to find the Golden Claw in the Pyramid.

If you want one of your party members to become a Sage, you'll have to travel to the Tower of Garuna northwest of Jipang. Inside the Tower is the Book of Satori. To find the Book you must climb up to the fifth floor of the Tower, battling monsters and mapping your route. On the fifth floor you'll find a rightspire. Fall off the middle of the rightspire into the chasm. At the bottom of the chasm you'll find the Book of Satori in a treasure chest. METROID II

HOW DO I REACH THE SPRING BALL?

Mike Robertson

The Spring Ball is located in one of the early caverns, but it's easy to miss. If you have between 27 and 34 Metroids left to defeat, you're in the right area. Look for two Save Points close together and then exit the left door. Spider Ball up the wall of plat-

forms then defeat the Metroid in the upper room. Now bomb your way down to get the Wire Beam. Return to the Mermaid rooms, go outside and roll up to the top of the area. Now head right and down into the narrow passage. Bomb left through the wall to the

Statue's chamber and get ready for a surprise. The Spring Ball crystal will come to life when you jump on it! The only way to destroy the Spring Ball is by rolling up in a ball and bombing continuously. Once you defeat it, you'll win the Spring Ball.

To reach the Spring Ball you must be in the area where 27 to 34 Metroids have yet to be destroyed. From the stop, head down and to the right, then take the left tunnel as shown above. Look for the two Save Points (XL), defeat the Metroid (ML), get the Wire Beam below, then go back up to get the Spring Ball.

Use the Spider Ball to roll up to the top. The Wire Beam is useful in this area.

If you shoot the Antifactor Statue, the ball comes to life, but it seems to be invincible.

Only one attack will walk against this enemy. Roll up in a ball and use your bombs against it.

◉ A Strange History ◉

Lemmings don't waste time thinking. In fact, the real little rodents have a curious history of marching mindlessly off cliffs, into water, and smack into other perilous situations, totally oblivious to the danger. The Lemmings in Sunsoft's new Super NES game are much like the real things. They drop out of a trap door and start walking without any thought to their destination or purpose. It's up to you, the player, to guide them safely to the exit—and that's

not as easy as it might sound. You'll have to assign them special skills to get them to create bridges, blast through obstacles, or dig down to openings below. And they just keep marching with total disregard for their safety while you decide how to reach the exit. With more than 120 progressively difficult puzzles, it's a great challenge for players who like to solve problems and save Lemmings.

I don't know where, but I'm going.

When you first see the area and location of the exit, pause the game and plan out what you'll have to make the Lemmings do in order to reach it.

SELECT A SKILL

Press X or Y to select the icon for the skill you want, then put your cursor on a Lemming and press A to assign it the skill.

FAST FINISH

To speed things up, raise the Lemmings release rate. To start over or use up the clock, bomb the marching Lemmings.

**Hurry up.
Let's get moving!**

LEMMINGS

The Lemmings may be in a big hurry, but they'll never reach their destination unless you take the time to teach them some special skills. The number of Lemmings that can be assigned to each skill is shown above the individual icons.

BASHER

Bashers can churn through many of the obstacles that block the Lemmings' paths. Press A and assign the skill just as the Lemming is about to reach the roadblock.

LEVEL 2 FUN A Basher can break through walls that look like solid granite. The other Lemmings turn back at the wall until the path is clear.

LEVEL 4 TAKING They can also break through big bricks that are turned under obstacles that they can't break, like the solid concrete blocks above.

LEVEL 15 TAKING They can even tunnel through obstacles like the monster's head! Whenever you want to create a direct path, try using a Basher.

LEVEL 16 FUN By keeping a builder on the job, you can bridge even large gaps. Keep the others occupied while the bridge is under construction.

LEVEL 21 TAKING In this situation, build a ramp above the exit so the Lemmings won't be lost by the fire that shoots out horizontally.

LEVEL 18 TRICKY This level is truly tricky. The exit is hidden in the builder on the stone ledge. Use a Builder to construct a ramp up to it.

BUILDER

Builders are one of the hardest Lemmings. They can bridge huge gaps and build platforms, but they build only short sections, so you have to keep an eye on them.

DIGGER

Diggers are monkeys for hard work. They tunnel straight down through most surfaces, and they don't stop until the job is done or you assign them new job tasks.

LEVEL 1 FUN You will learn to use Diggers at the very first level! The exit is visible below, so you'll have to dig down in order to reach it.

LEVEL 20 TAKING This uses some book learning, but you can use a Lemming that falls from the door above to dig through the ledge to the exit.

LEVEL 12 MATHS! Use one Lemming to dig through the cell, then do some fast building to prepare the way to the exit for all of the others.

LEVEL 7 FUN Floaters sink gently down. Floaters, on the other hand, go up! You'll have your first opportunity to float in the second level!

LEVEL 12 TRICKY First one Lemming down and quickly begin to build ramps up to catch the others. While the first one bobbles, float the others.

LEVEL 16 TAKING The first step in this level is a doozy. You can use only four Floaters, so block the exit as they come out and build quickly.

FLOATER

Floaters pop out umbrellas and drift to graceful landings. If there aren't enough umbrellas, make the first Lemmings float down and build ramps for the rest.

MINER

Talk about tough! Miners tunnel through hard surfaces at an angle, which comes in handy when you want the other Lemmings to descend gradually instead of falling.

LEVEL 4 FUN There's nowhere to go but down! Use your single Miner to tunnel a path to the lower level, then make all of the Lemmings climb.

LEVEL 23 TRICKY Begin by using a Blocker to tunnel through the center block, then climb our road, pick a path back to free the rest of the pack.

LEVEL 27 TRICKY Set a Blocker, then have a Miner dig at an angle that will make the tunnel open low enough to let the Lemmings level safely.

LEVEL 3 FUN Set Blockers at the end of ledges to keep the others from walking off the ends. It's fortunate that you don't have to mine 100%!

LEVEL 29 FUN You have plenty of Blockers in this level. Set one on the right to keep Lemmings out of the den, then begin to tunnel to the left.

LEVEL 15 MATHY You have to step lively in this level! First, set a Blocker on the right, free power and rush over to set one on the far left.

BLOCKER

Blockers stop in one place and turn other Lemmings back in the opposite direction. There's no way to move or change them, so once they're set, you can't save them.

BOMBER

Like the Blockers, Bombers sacrifice themselves to save the other Lemmings. Use them to blast through ledges and to blow holes in the ground.

LEVEL 6 FUN Timing is critical with Bombers because they wait five seconds to explode. Set one to go off beside the pillar to blow a hole.

LEVEL 19 FUN Bombers are your only choice in this level. Set them to go off above areas that will be safe for the other Lemmings to land in.

LEVEL 25 TALKING When you don't have Blockers, you can use Bombers to create pits that will hold the pack while you build essential ramps ahead.

LEVEL 20 TALKING Before the climbing starts, press A just as a Lemming reaches an obstacle. It will climb and convert blocks to level above.

LEVEL 11 TRICKY If you time it correctly, you can use the Climbers to blast through walls. Set it so they explode at a weak point in the wall.

LEVEL 7 TALKING You have to tunnel through same walls in the same direction the wrong way! Climb over, turn around and come back to back.

CLIMBER

Once a Climber, always a Climber. You have to keep tabs on them. They don't turn back at obstacles like the other Lemmings do—they just start climbing again.

Zoom in on the hot spots!

When things are happening really fast, scrolling with the Left and Right Buttons uses valuable time that might make you miss important moves. You can move around more quickly by using a special technique. To move to a new location, put your cursor at that point on the map in the lower right corner. When you press the A Button, you will pop to that place instantly!

Take a look at these tough ones!

LEMMINGS

The levels become more challenging as you move up, and it helps to learn strategies in the early stages. Later, you'll have to figure out solutions to new problems. Below are techniques that work in a few of the more difficult levels.

TRICKY—LEVEL 13

There's no time to lose at the beginning of this tricky level. You have to start building and set blockers right away to keep the loony Lemmings from taking a plunge, and you have to rescue 70%.

Use the first Lemming to start building a ramp up to the right, then set the next two that emerge on Blockers to keep the others in the center.

When your Builder completes the ramp, make him a Climber. Before he drops off to the right, run him into a Floater so he won't slip! Land.

Make the Floater begin building immediately when he lands. Build to the upper right as shown, then turn back and build towards the center.

When the Builder hits the center and turns around, let him walk all the way back up the ramp to the right. Start building the next two ramps.

Now walk over to the right, feet down, and continue to the right side of the platform. Make your Lemming build a short ramp over to the next.

Move back to the center and create an explosion to take out the upper ramp. The Lemming handle can now march to the east with time to spare.

TAXING—LEVEL 1

You must rescue 99% of the 100 Lemmings released in this level. The task is made doubly hard because you have so few skills to assign; you start with eight Builders but only two of everything else.

Use your few skills economically. Assign climbing skills to your first Lemming, and let his cartowne while the rest walk around waiting.

After your Climber reaches the top of the loose columns, give him floating skills so he'll land safely and be able to cross to the next column.

In the mountains, use a Digger to start a hole, then change him into a Builder. Build a tunnel to the right to meet up with the ramp; you'll build.

As your first Builder begins digging the tunnel below, you should change your Floater into a second Builder to dig through the second column.

After he builds through the columns, have your first Lemming build a bridge to the right. Place it low so the tunnelers can meet up with it.

Your first Lemming should still be leading the way. Have him build a ramp to take the new path and lead to the east above.

MAYHEM—LEVEL 6

You'll begin this level with only five Diggers, five Miners, 15 builders, and 10 Bombers. You can't use any of the Bombers, though, because you have to rescue all of the 75 Lemmings released!

The first Lemming released is your warthog. Move him start building a ramp to the next level as soon as he drops into the pit on the right.

When you finish the first ramp, have a Lemming dig through to some of the others on climb-up. Build up to the left then back to the right.

Walk over the concrete blocks and dig into the ramp below. Go to the right and mine a chunk out of the mountain to create a dead end.

Turn back on the dead end and walk over to the south on the left. Begin digging down to the point at which you can bridge across to level land.

While the rest of the Lemmings continue to mill around in the pit above, build a bridge over to the left to prepare a safe path for them.

Start a bridge over the final gap. While the first Lemming builds, hurry back up to repair the ramp you dug through earlier.

THE GOLDEN RULE

An ancient legend of Hyrule tells of a Magic Power locked away in a secret, Golden Land by seven wise men. That age of the world has passed and now a wizard named Agahnim appears in Hyrule. At the same time, descendants of the seven wise men of legend begin to disappear. When Princess Zelda also vanishes, Link can no longer sit idly by. So begins Nintendo's classic new adventure that links two worlds—one of Light and one of Darkness—where treasures or terrors may lie beneath the stones and in the shadows. *Look for The Legend of Zelda: A Link to the Past at most Nintendo Dealer locations May 1st.

Whether they are hidden beneath rocks, in caves, buried in the ground or guarded by monsters these items are the real keys to Link's success. Some items can be used in many ways and in many places. Others are used only once. Explore thoroughly: bombing, cutting, lifting, pushing and hitting everything! Use your items everywhere!

BOW & ARROWS

You'll find the Bow and Arrows early on, and you'll need them. You beat those logging enemies. Don't have half a eye, do do they?

BOOMERANG

Slay creatures, with the Boomerang, or collect items that are out of reach. If someone sends you to prison it's easy, do it. Well, come back.

Don't let those bees bug you! Catch one with the Net and store it in a Bottle. Release it later to attack foes. Then try catching a Beeble.

BOOK OF MUODRA

Strange Hyrule-lyrics are written on tablets throughout the land. Only if you have the Book of Muodra can you translate the words.

BOTTLE

Bottles hold potions and other things like Sea Bees. Buy Bottles in town or find them in the countryside by pulling your nose under everything.

CANE OF SOMARIA

The Cane of Somaria creates Blocks, which can be used in several ways. You can also defend yourself by shooting fire in four directions.

CANE OF BYRNA

For the best protection around, use the magical Cane of Byrna. You can even protect yourself from enemies while swimming!

MAGIC CAPE

Not all is what it appears to be, especially if Link does the magic spell. Enemies can't hurt what they can't see, even in the Dark World.

MAGIC MIRROR

One step through the Lookingglass takes you back where you came from. Look for a friend to give you the gift before you scale the heights.

EXCELLENT EQUIPMENT

● SWORD

Link's main weapon is the sword. He can swing it for a regular attack or power it up by hitting down the B button, which results in the awesome Spin Attack. There are four levels of sword waiting for Link somewhere in Hyrule.

● CLOTHES

Clothes and armor primarily protect Link from the blows of his enemies. You never have to activate or choose Mail, but he can use more protective Mail you can find. There are three levels of protection.

● BOOTS

The Pegasus Boots give Link the ability to run at super speed. Using the Dash Attack, he runs so fast that he glows straight through enemies. Try crawling into trees and other things to see what happens.

● FLIPPERS

Zoro's Flippers allow Link to swim in the lakes and rivers of Hyrule. Many gloves can be received only after you buy the Flippers, but buying these won't be as easy as walking into a shop and buying down your Rupees.

● SHIELD

Link's Shield can stop arrows and other enemy attacks. Three Shields are available during the game. Learn how Link moves his Shield during battle. When he attacks, Link moves the Shield to his right side.

● POWER GLOVES

Power Gloves give Link incredible strength enough to lift great stones or push monstrous statues. Throughout Hyrule, many true secrets and hidden doorways will be found beneath stones.

● MOON PEARL

One of the strongest aspects of the Dark World is that you change shape when you enter. People become rabbits, pigs and other strange creatures. Once you have the Moon Pearl, you will retain your true shape.

LOST WOODS OUTER WOODLANDS

THE SECRET OF THE MASTER SWORD

Legend tells of an ancient sword that lies somewhere in the Lost Woods. Is it Link's destiny to claim this mighty sword? You must venture into the drifting mists of the woods to find out. Your eyes may play tricks on you there. Beware of thieves and secretive creatures who dwell in the greenwood.

Mists drift through the Lost Woods like ghosts. Other trees rise and fall, so you must concentrate.

THE MASTER SWORD

A secret glade deep in the forest contains a monument with the Master Sword embedded in it. Strange writing on the monument is meaningless without a translation.

Fill the quest of the three Pendants, then return for the Master Sword and claim it as your own.

Earlier in the Lost Woods you may have bumped into one of the band of thieves who dwell here. This thief, however, will not rob you blind. Go into his house and take what you find.

TUNNEL TO DEATH MOUNTAIN

The path to the top of Death Mountain winds through dark tunnels. Link will be attacked often, but he'll also meet a friend along the way.

The Old Man in the tunnel will give you a revealing gift. Now you can restore your spirit from the Old Man's cave.

LUMBERJACKS

The lumberjacks have noticed something very odd about the tree they are cutting down. Later on you'll be able to shake off its leaves.

THE SECRETS OF THE TREES

Some trees have hidden secrets. Use the Death Attack to crash into them and make special items appear.

KAKARIKO VILLAGE

THE LEGENDS OF HYRULE

In the village of Kakariko you'll learn of many legends and secrets that will help you in your quest. Be sure to speak with everyone, but be prepared to run. Link has a price on his head and some villagers will call for the soldiers. Besides information, there are many items to pick up here.

Since Link rescued Zelda from the dragon, he has become a hero to the evil power controlling Hyrule. Luckily, most people treat him

THE INN

The Inn has two rooms and two ways in. Enter from the top or bottom. Learn useful facts in the main room and find a Bottle in the upper room.

Enter the lever entrance and talk to the people in the inn.

The upper room has a Bottle in a treasure chest.

MYSTERIOUS HUT

There doesn't appear to be any way to enter this building. If there isn't a door, then use a bomb. Not all walls can be bombed, of course, and some cracked walls can be knocked down with the Dash Attack.

The Blacksmith's partner has disappeared and won't return to improve the Master Sword. Don't expect this to happen until much later in the game.

THE QUARRELING BROTHERS

The brother in the first room isn't speaking to the brother in the second room. Blow a hole in the wall between the two rooms to get them talking again, then run a race outside to earn a piece of Heart Container.

Reconcile the brothers, then challenge the maze. Look for a shortcut to win the prize.

HOUSE OF BOOKS

One book has been left out in the House of Books, but it is stuck on top of the bookcase. Use your head, and your feet, to retrieve the book.

FLOCKS OF ANGRY CHICKENS

The chickens in Hyrule may seem stupid, but don't underestimate them. If you beat up an chicken long enough, a mob of its kind in a few feet will eventually attack you without mercy.

DESERT OF MYSTERY

HOME OF THE MUDORANS

The entrance to the palace in the desert is locked and the monolith that contains the key is written in the strange script of the ancient Mudooran. Other monuments throughout Hyrule share this mysterious language. Learn to translate the Mudooran language, then enter the temple.

The sands of the desert suddenly erupt and the Goddess comes forth, grasping at Link. At the same time, raptors swoop down from the cliffs.

SLEEPING MAN

The fellow in the canyon has nothing to say to you unless you pull up his signpost. If you take the sign later, he will unlock a mystery.

DESERT PALACE

Levers and rotating lasers keep Link hot-footing it through the Palace in search of the second Pendant. One of the keys to the Palace is to remember your hard knocks in the House of Books. You'll need true enlightenment to reach the final chamber.

The Skull beyond the wall indicates where the House of the Desert Palace is lurking. Shred away light on the situation using your lamp.

Sound and sound go the unblinking eyes of the Laser Towers. If the eyes see Link, they will fire beams of energy.

Attack the heads of the Lornolias as they appear. Use your powerful Spin Attack for the best results.

MACHO LINK

With the help of the Power Glove, Link can lift movable weights like these stones.

FAERIE IN A BOTTLE

Catch a Faerie with the Net and keep her in a Bottle. If Link dies, she'll bring her back to life in the same place.

DEATH MOUNTAIN

THE FINAL PENDANT

The dangerous trails and tunnels of Death Mountain lead to a fabled tower on the summit. There Link must battle for the final Pendant, but reaching the tower won't be easy. Look for help along the way, and on the top, seek out the Spectacle Rocks to reach the tower.

Many of the areas on Death Mountain can be reached only by jumping to narrow ledges from above. At the edge of the cliff, look for openings.

MOUNTAIN CAVE

The Old Man in the Mountain Cave will give you a valuable gift. Hereafter, you can start your journey at the Mountain Cave, Link's House or the Sanctuary.

BROKEN BRIDGE

The planks of this bridge rotted and fell away long ago. Now Link's only hope to cross the span is the Hookshot. When you have obtained the Hookshot, return to the bridge and search out its secrets.

GREAT SWAMP & ENVIRONS

THE SWAMP HOLDS DEEP MYSTERIES

The tall grasses, stone statues and many ponds of the Great Swamp conceal secrets from the age of legends. Solving the puzzles, like that of the Haunted Grove, is a more involved task than simply stumbling across a treasure. Pay heed to messages and explore the darkest corners.

Much is hidden by the tall grasses of the Great Swamp, and not all of it is secret. Look out quickly now drive the reeds by using his Dusk Attack.

LINK'S HOUSE

This is where Link begins his long quest. Search the single room for the Lamp before heading out into the rain.

Later on, you can begin sessions of play in this central location.

FISH STORIES

A fish in need is a friend indeed. If you find a fish flopping on land, pick it up and throw it into a pond for a reward.

HAUNTED GROVE

The secret of the Haunted Grove will only be unburied when you visit the same area in the Dark World and put right what once went wrong.

The boy playing the flute cannot be touched, nor can the animals be harmed. The answer lies in the Dark World.

SWAMP RUINS

A great civilization once thrived here. Inside the Ruins remains a token of their technology—a water gate that drains the ponds. Although inconvenient for local fish, draining ponds will help Link in another dimension.

BOMBING FOR PROFIT

Look for places in walls, floors and cliffs that have cracks or a different pattern of rocks. These are the weak spots that you should bomb.

LAKE HYLIA & SURROUNDING SHORELANDS

THE SEARCH FOR STRENGTH AND HAPPINESS

The large lake in the southeast corner of Hyrule has secrets both in its waters and on its shores. You'll need the Flipper to explore the lake area, but early in the game you can find much on the shore. The Fountain of Happiness has a special secret that is worth its price in Rupees.

Swimming is the only way to cover most of the lake, but the Flipper won't be found here. Look for them on the streams of the North.

FORTUNE TELLER

For a small fee, the Fortune Teller will give you advice about what to do or who to see next on your journey, but don't expect too much help from him.

ICE CAVE

To the left of the Faerie's Spring is the Ice Cave, but you can't reach the Treasure Chest from here. There must be another entrance from the outside. Test the theory with bombs.

In the legend of the Good Bee, you'll look for a queen, strong bee and catch it with the net. Release the Good Bee to fight enemies that bug you.

WHIRLPOOLS

In Hyrule, the Whirlpools can be used to transport Link from one area to another. Swim directly over the Whirlpool and you'll be transported to a place across the kingdom. It's the fastest way to travel in Hyrule.

THE DARK WOR

When Agahnim captured the descendants of the seven wise men of legend, he brought them to the Dark World and imprisoned them in Crystals. These seven must now be freed or the forces of the Dark World will invade Hyrule. It is said that for every evil-doer there is one hero who can stop the wickedness and save the world. Link is that hero, but the evil power of the Dark World is controlled by someone stronger than Agahnim. Now, through seven dungeons and many other dangers, Link must prove himself the champion.

The Dungeon Masters of the Dark World are strong and merciless enemies.

DARK PALACE

The first Crystal is hidden inside the intricate maze of the Dark Palace, but there is a maze of thorny trees outside that you must first pass through. Once inside, search for the Magic Hammer. Enemies with shells can be defeated only by using the Hammer. Be sure to push stones and statues and take plenty of bombs to fight the Dungeon Master.

Look for tiny holes in the canopy that mark the trail through the outer trees.

This monkey's business is your business, Link, for a short time.

The difficulties here only begin by the time you reach the entrance to the Dark Palace.

HELMASAUR

The Helmasaur King is vulnerable to fire but is protected by a heavy mask. Use bombs to shatter the mask, then attack the dinosaur with your sword and the powerful Spin Attack.

TWO WORLDS: LIGHT & DARK

LIGHT WORLD

DARK WORLD

The Dark World is a twisted reflection of the familiar Light World of Hyrule. Paths and mountains may be oddly shifted, and new enemies wander the eerie forests. Link can pass between the two worlds using the Portals and the Mirror. Several Portals besides the one on Death Mountain can be found. While searching for the seven Crystals, Link will have to go back and forth between the worlds many times to get items and clues that can be used in the opposite world.

Some places in the Light World can be reached only by going to the Dark World first, then transporting.

The Legend of Zelda: A Link To The Past might be called the ultimate adventure. There is action for those players who love adventure, mysteries for those who love secrets, two worlds to explore and a story that ties it all together. The quest has just begun, although already it seems like it has been a long road. Link's path will pass through the seven levels of the Dark World and the Golden Pyramid. He will meet unlikely friends and face dangers in both the Light and Dark Worlds before hearing whispers of the dreaded name of Ganon.

TWO GUYS' OPINIONS ON THE LATEST RELEASES

Our pair of opinionated players have been busy keeping up with all of the latest NES, Game Boy and Super NES releases.

In this issue they review *Terminator 2: Judgment Day*, *Extra Innings* and much more.

GEORGE Let's begin with *Blazebusters* for the NES. It's a fire-fighting, rescue game. You control two fire fighters on the ground who have a trampoline while a third fire fighter bounces on the trampoline and attempts to save people from a burning building.

ROB Backdraft it ain't.

GEORGE You're right. But I don't think it's meant to be a realistic fire-fighting simulation or anything like that. It's definitely aiming for a young audience. The fire fighters look simplistic, like Fisher-Price characters, and the game play is very basic.

ROB It's incredibly basic... sort of like *Pong* or *Alleyway* with a burning building theme. I think that a little kid could have fun playing it and wouldn't be frustrated at all by difficulty.

Personal Power Meter for *Blazebusters*: George: 2.5 3.0 2.5 3.0 Rob: 3.0 4.0 3.0 3.0

GEORGE *The Empire Strikes Back* is reviewed elsewhere in this issue. I'd like to point out that the story follows the plot of the movie scene by scene and that the graphics and sound are excellent but the play control may take some getting used to. In tight situations where you have to jump from one moving ice flow to the next, for example, it takes a lot of practice before you can hit the next ice flow every time. Barring that, I think that I like it even more than the *Star Wars* game.

ROB Moving on to *Godzilla 2*... this is a strategy game where you are in charge of armed forces who attempt to keep Godzilla and other monsters from destroying the city in several different scenarios.

GEORGE I think it's a pretty cool concept. I like the fact that you have all of these defenses, like planes and tanks, and you can use them strategically to fight off the monsters.

ROB Yeah, the concept's OK, but it's really more like a board game than it is a video game. You could play this just as easily on a table top with little plastic pieces as you could on your NES.

GEORGE That's true, though, in this case, you have the computer controlling the monsters, while in a board game, you'd need a second player. The first *Godzilla* game had a fair amount of action and some strategy elements. It looks like the sequel is concentrating much more on strategy.

ROB And for a game that is named after one of the greatest movie monsters ever, I would like a lot more action, a lot more destruction and game play that requires good dexterity.

Personal Power Meter for *Godzilla 2*: George: 3.0 3.0 3.0 3.0 Rob: 2.5 3.0 2.5 2.5

GEORGE **Super Square Deal**, made for the NES, and **Square Deal**, made for Game Boy, are more or less the same game. They fit the mold of puzzle games like Tetris, Htris and Dr. Mario. In this case, we're dealing with cards that fall into a five-by-five grid and the object is to match three cards of the same number or suit. I'm not really a puzzle game fanatic, so one or two games of this type would be just fine for me. They seem to be falling out of the woodwork.

ROB I think they should have called this game Poketrtris. The card game idea serves as only a backdrop while the game is just another Tetris-like puzzle. It's fun and a good temporary diversion but it's not one of those games that you would play for hours on end.

Personal Power Masters for Super Square Deal: George: 30 30 30 25 Rob: 30 35 35 30

Personal Power Masters for Square Deal: George: 20 30 20 35 Rob: 30 25 30 30

GEORGE If you're looking for more of a traditional Poker and Blackjack game, you should check out **High Stakes** which is reviewed in this issue's Game Boy section. Our next game is **Terminator 2: Judgment Day**, an NES version of last summer's biggest movie. Just like The Empire Strikes Back for the NES, this game is a scene by scene movie adaptation. You control the Terminator character as he tries to find and destroy the new Terminator. It's got decent graphics and good action and I think that people who like the movie will be pretty satisfied with the game.

ROB The problem that I had with it from a graphics standpoint is that the character is really wimpy compared to Arnold Schwarzenegger. You see a good depiction of Arnold on the title screen, but during actual game play, the character that you control looks kind of slight. I thought he would have been bulkier. Another thing is that I found it to be pretty difficult in the motorcycle stage. About three seconds after you begin, you crash into this wall with almost no chance to react.

Personal Power Masters for Terminator 2: Judgment Day: George: 35 35 35 40 Rob: 35 40 35 30

GEORGE Well, I suppose that you could get some tips from the review in this issue. On to **Wizardry II: Knight of Diamonds**, which is part of the popular series of Wizardry PC games that is being adapted to the NES. Like the first Wizardry game for the NES, I'm sure that this one is very deep and challenging, though I would only recommend it to real hardcore role-playing game fans.

ROB It's a lot like Dungeons & Dragons and I think that you really have to be into it in order to enjoy it. And since the viewpoint is first-person perspective, you'll get lost very easily unless you made pretty good maps and notes. It's not a game that you can just sit down and play without getting really involved.

Personal Power Masters for Wizardry II: Knight of Diamonds: George: 35 25 20 20 35 Rob: 30 30 30 35

GEORGE Looking at the Game Boy lineup, there's a puzzle game called **Pop Up**. You guide a bouncing ball through obstacle courses, picking up helpful items along the way.

ROB I think it's a good game. It's fun and challenging, but I think that it could use a help feature so that if you got stuck you could get a few pointers. In one of the early screens, for instance, there's a brick wall as the way with seemingly no way to pass it. I could have used a tip on how to get around to the other side of the wall.

GEORGE Actually, there's an item which allows your ball to break through the wall. I didn't find the game to be too difficult because every item that you need is there on the screen. As long as you know what the items do, you can get through pretty easily.

Personal Power Masters for Pop Up: George: 35 30 35 35 Rob: 30 30 30 30

ROB **Pyramids of Ra** is next. The object of this puzzle game is to break all of the tiles in a series of rooms with a bouncing ball in a way that you can return to the starting point when all of the tiles are broken. The Pyramid theme is a bit of a reach.

GEORGE I found the game to be fun and fast moving but not incredibly challenging. I went through probably 15 rooms, each on the first or second try, and it didn't really take a lot of brain power to figure out. The puzzles may get more difficult as you move on.

Personal Power Masters for Pyramids of Ra: George: 35 35 30 40 Rob: 40 30 30 30

ROB

I'm sure that they do. Up next is **Star Saver**. In this running and jumping space game, your objective is to travel to several different planets and save your friends from evil aliens.

GEORGE

I found the game to be quite difficult and frustrating. If you're hit once, you lose your spaceship and if you're hit again, you're sent back to start over at an earlier point in the stage. The graphics are decent but there was nothing in the game that really sets it apart from other games of the same kind.

Personal Power Masters for Star Saver: George: 2 5 2 0 2 5 4 0 Rob: 2 5 2 0 2 0 2 0

GEORGE

We go from *Star Saver* to *Star Trek*. This new adventure is split between Enterprise piloting action scenes and planetary exploration with Captain Kirk, Mr. Spock and Dr. McCoy.

ROB

I'm a big *Star Trek* fan and I was excited to pop in the Game Pak and hear the opening strains of the *Star Trek* theme. The story is that there is a planet destroyer somewhere in space and the Klingons have a machine that can defeat this creature. What you have to do is get the machine from the Klingons and then go after the planet destroyer. The introduction to the story takes place in the ship's bridge, but immediately after that, you go to this view of nearby space. You have to chart a course for the Enterprise to this planet through various dangers. At that point, the game was a bit of a let-down for me. The Enterprise is very small and basically, you just have to avoid asteroids, Klingon Cruisers and dangerous obstacles in a huge Space Amoeba.

GEORGE

That part of the game is quite a bit different from the NES version of *Star Trek*. If you enjoy space shoot 'em ups, you'd probably like it.

ROB

I prefer the scenes that take place on planetary surfaces where you actually control the members of the crew.

Personal Power Masters for Star Trek: George: 2 5 2 2 0 2 2 5 Rob: 2 0 2 0 2 0 2 2

GEORGE

Before we move on to Super NES games, we should mention that the Infogentus line of Game Paks is expanding with a **German Language Translator**. It works as a kind of electronic book, translating both from English to German and German to English. I can see how it could be helpful if you are traveling in Germany and would like a quick language reference. There's also an **Infogentus Japanese Translator** on the way.

The Infogentus line expands with the Infogentus German Language Translator.

ROB

Our first Super NES game up for discussion is **Extra Innings**. You and I have played two Extra Innings games and unlike our Rampart rivalry, I've actually won a game here.

GEORGE

That's right. We both had runaway innings in consecutive games and you took the second game. I think this is one of the best baseball games for the Super NES so far. It doesn't really offer anything new but it's an all-around good game with detailed graphics and solid play control.

ROB

The players don't really look like real pro baseball players. They're more along the lines of the comic, younger players in Nolan Ryan's Baseball which we reviewed a couple of issues ago. They are also fairly small once the viewpoint switches to that overhead look at a large part of the field at once, though I do like the graphics of the game. One thing that I don't like is that the defensive players seem to be pretty slow and weak. The runner might be rounding second by the time the outfielder gets his hands on the ball and then the throw to third ends up just rolling in. I think that we both scored inside-the-park home runs in our two games and that almost never happens in the real game.

GEORGE

Yeah. I would prefer faster and stronger fielding also, but I think that the strengths outweigh the weaknesses here. The battle between the pitcher and the batter, for instance, is very fair and realistic. There are some games where hitting is next to impossible, but I think that it's pretty easy and intuitive in this game, and that allows for a lot of action and scoring.

Personal Power Masters for Extra Innings: George: 4 0 2 5 0 0 2 5 Rob: 2 0 2 0 2 2 2 0

ROB

Next, we have **Smart Ball**. In this game, you control a prince who has been transformed into a very flexible ball. Your mission is to somehow find a way to change back into your human form. You can slither along the ground and defeat enemies by changing your shape.

GEORGE

It's like a *Boy and His Blob* without the boy. You can do a lot, like climb walls and stick to the ceiling. The graphics and play control are great. If you like the concept, you'll probably like the game.

ROB

The play control is difficult to get used to. You should have a chance to get the hang of the game before you have to do the really difficult stuff.

GEORGE I think that the favorite game for both of us this issue is **The Legend of Zelda: A Link to the Past**. This game is just amazing. It's got incredible graphics, great sound effects, and it's a well thought out adventure.

Personal Power Ratings for The Legend of Zelda: A Link to the Past. George: 5.0 4.5 4.0 5.0 Rob: 4.5 4.0 4.5 4.5

The opinions of Rob and George do not reflect the opinions of Nintendo Power Magazine or Nintendo of America Inc.

ROB I think it's going to be a mega-bit. It takes all of the things that made the first two Zelda games fun and exciting to a new level with the enhanced graphics, sound and depth made possible by the Super NES.

CORIN NEMEC CAN'T LOSE

Zing, bam, swoop goes the soundtrack of "Parker Lewis Can't Lose," the fast-paced FOX comedy series. With its zany special effects, it's the only television show we know of that can be compared to a video game. We recently interviewed Corin Nemeč, who stars as the charming but mischievous Parker Lewis. When we met, we talked to the coolest kid in high school about video games and gave him a sneak preview of the new Super NES game, *The Legend of Zelda: A Link to the Past*.

Corin Nemeč, right, better known as Corley, stars on Parker Lewis, who comes up with an ingenious plan for every adventure.

Celebrity Player Profile

Nintendo Power: What do you like best about playing video games?

Corley Nemeč: They're so much fun and they're extremely educational, too. I love the challenge of trying to complete the games, to find hidden things, to reach new levels. Video games help with concentration and hand-eye coordination. Let's face it, you have to be intelligent to play; you can't be a moron.

NP: What do you think of *The Legend of Zelda: A Link to the Past*?

CN: Very cool! I couldn't get away from the game. The graphics are spectacular. Aaagh! I still haven't beaten Ganon.

NP: Do you have any video-game playing tips for our readers?

CN: Let go and have a lot of fun. Don't get frustrated—it'll ruin the fun of the game. Laugh at your mishaps.

NP: What's your favorite video game?

CN: Right now it's *Super Mario World* for the Super NES. It came at the perfect time—I was really ready for a new Mario Bros. game. It's the coolest. I've stayed up all night playing it with my friends. I like Yoshi!

NP: What do you like best about being on *Parker Lewis Can't Lose*?

CN: The show incorporates special effects, music videos, and, most of all, originality. Parker's extremely likable. He's very popular and into helping people, which is cool.

NP: How did you get started acting?

CN: A friend introduced me to his acting coach and, before I knew it, I was doing commercials. Since then, I've been in the film "Tucker: The Man and His Dream," and television movies "My Son Johnny" and "I Know My First Name is Steven." (Corley was nominated for an Emmy for his portrayal of kidnap victim Steven Seaver.)

NP: Is there anything about you that would surprise your fans?

CN: (laughing) That I'm not Parker Lewis. I like Parker. He's funny, outgoing, sure of himself, and involved with helping other people. I like to keep a little more to myself, so when I'm Parker, I get to be someone else, which is one of the great things about acting.

A LOOK INTO THE GAMES OF THE FUTURE

AK WATCH

WWF Super Wrestlemania

LJN

WWF Wrestling will come to life soon on the Super NES thanks to LJN and Sculptured Software. The nearly-finished version they sent us got a long workout, and we're happy to report that we liked what we saw. The digitized opening sequence helped set the scene, and the likeness of the wrestlers like Hulk Hogan, "Macho Man" Randy Savage, Animal, Hawk, the Natural Disasters and others (you in all) were almost photographic in clarity. Even more impressive was the smooth animation of the wrestlers during the action in the ring—the best we've seen for a wrestling game.

At first, we thought that the controller sequences for executing different body bashing throws and holds were difficult to figure out. Once we got some basic moves under our belts, however, we started to rock and roll. From simple head-butts to B-52 Bellybombs off the ropes,

we used every dirty trick in the book. All the wrestlers are capable of making the full range of moves, but size and quickness affects execution. As a result, strategy is very important, which means brains are just as important as brawn.

Realistic touches add a lot to the game. Like the crowd going ape when you make an awesome move and wrestlers responding slowly to your commands when their

energy levels are low. The two-player mode was our favorite, but with the option to wrestle One-on-One, Tag Team, or in the four-on-four Survivor Series, playing the computer can also be a challenge, especially if you set the game to the Hard mode. Frankly, this Pit Watcher was impressed. Playing WWF Super Wrestlemania was much more fun than watching the real thing.

The Addams Family

OCEAN

Ocean has put together an impressive looking action game for the Super NES in *The Addams Family*. Although the game play is similar to Mario adventures—Gomez stomps ghosts, ghouls, rabbits and other critters who dwell in the huge Addams Family mansion—there are twists to collect that add challenge and fun to the game. For instance, if you find the Fez hat, Gomez can fly! The range of actions is a real strength as Gomez tries to rescue the strange members of his cocky, ooey clan.

According to Ocean, *The Addams Family*, should be available this Spring and

Robocop 3 for the Super NES and NES will follow.

The Duel: Test Drive 2

ACCOLADE

Our sources at Accolade say that work has begun on a Super NES version of *The Duel: Test Drive II*. The Test Drive games are driving simulations featuring some of the fastest production models in the world and realistic scenery as seen from a cockpit view. Distinctive Software, the developer, plans on adding a Lamborghini Diablo to the Super NES lineup along with the Ferrari F40 and Porsche 959. The screens shown here are from the Arrigo. In head-to-head competition or time trials these cars can

speed up to 190 mph. As this game goes through the many steps of development,

we'll keep you updated with progress reports in Pak Watch.

Gargoyles Quest

CAPCOM

Rick in January we promised you a look at *Gargoyles Quest* for the NES from Capcom. Here it is, and in this Pak Watcher's opinion, the Ghost Realm was meant to be explored on a large screen and in color. For those of you who

weren't introduced to Firebrand the Gargoyle in the hit Game Boy version, his world is a mix of overhead adventure and side-scrolling action with a trove of items to collect along the way. Look for this one in the next few months! Capcom also has

two Super NES arcade conversions—the 16 meg *Street Fighter II* for two-player action and *Magi: Sword's 50 Stages* of heroic battles. Ariel (Disney's *The Little Mermaid*) should be appearing soon for Game Boy.

There, your Pak Watchers found a big top atmosphere and 54 licensee exhibitors showing off hundreds of games for the three Nintendo systems. Amidst jugglers, video characters come to life, and an interactive Mario, we found the following scoops.

The big news from **Nintendo** was the announcement of a CD-ROM for the Super NES, which is scheduled for release next January. Nintendo also showcased *The Legend of Zelda: A Link To The Past*, the Super Scope 6, and *Super Play-Action Football* for the Super

NES.

At the **Capcom** booth we tested out *Street Fighter II* for the Super NES and found that this 16-megabit version was just as fun, fast and fantastic as the arcade original. For the NES, *Dark Wing Duck* really impressed us with great control and fun activities like floating with helium balloons.

It looks like **Konami**/**Ultra** is continuing to put out tons of fun. Leading the way on the Super NES are *Contra III: The Alien Invasion* (previously called *Super Contra IV*) and *T.M.N.T. IV: Turtles In Time*. Both are terrific games for two players. Konami scored another major coup when it landed the license for the upcoming Batman movie, *Batman: The Return*. Look for a Super NES game based on the film at the end of the year.

Acclaim/LJN will continue to produce a wide variety of games. *Bat's Nightmare* for the Super NES had Bat

barfing viruses and turning into a dinosaur. Another game in the first stages of development for the Super NES is *Spider Man And The Uncanny X-Men*.

The biggest news for license-based games, however, may have been the announcement that **Sunsoft** signed a deal for the use of the Looney Tunes characters. Already they are planning *Death Valley Rally*, featuring the Roadrunner and *Wile E. Coyote*, and *Tazmania Supremacy*, *Batman: Return of the Joker*, and *Bleat Master 2* for the Super NES make the future look even brighter. *LooneyTees* will also be coming for the NES.

Data East's Super NES *Ultrabots* is a clunky looking cart along the lines of *Battletech* that looks promising. David Cruise demonstrated his amazingly good *Amazing Tennis* for **Absolute David**, who is a tournament tennis player, has succeeded in capturing the feel

of real tennis for this Super NES game.

American Sammy was excited about two classic D&D type games—*Might & Magic* with very good graphics for the NES, and *Might & Magic II* for the Super NES. **FCI** was also showcasing its RPG lineup, headed by the Super NES version of *Ultima VI: The False Prophet*. For the NES, *Dragon Strike* looks like an interesting variation from the AD&D family. The overhead view of this game lets you fly dragons and battle in the air.

The big news from **Jaleco** is that they are working with **Lucasarts** on a *Young Lady* game based on the TV series that will air in the fall. **Hi-Tech** is also working with a major license in a Super NES *Hunt For Red October*. A very early Super *Battletoads* game was shown by **Tradewest**. The **RARE** development team seems to be heading in the right direction with some cool super moves

for the trends to use against super badies.

Another major trend is that computer games continue to be converted to the Super NES. **Software Toolworks** announced that the space-flight simulator, *Wing Commander*, was on its way. **Maxis**, the creators of *Sid Meier's*, were showing a Super NES version of *Sid Meier's*, which has already been released in Japan. The hit PC game, *Roadward Journey* from **Microprose**, was announced as a fall release, although

the Super NES version was not available. Creating *Tammy II* for all three systems is the big project at **Accolade** along with *The Duel: Test Drive 2*.

Of the five Super NES basketball games, **BAL's** *NCAA Basketball* showed promise with unique Mode 7 graphics effects. **Electronic Arts** showed a solid *Baldy Vs. Lakers*, but everyone was talking about their upcoming PC game, *Michael Jordan's Flight Simulator*, which this Pak Watcher would like to see on the Super NES.

The most talked about game was a CD ROM ghost story called *Ghost* from **Virgin Games** while the most talked about people at CES were probably the guys at **Bulletproof Software**, who

wore bright yellow pants with happy face designs to promote *Super Football*—one of the best two-player games we saw! **Ocean** was busy with several development projects: *Radius Flyer*, based on the upcoming movie, and *Joe Vs. The Wolf* and *Push Over*—two unique puzzlers. The biggest surprise was *Wings from Namco*. The WWI flight simulator is a big improvement over the original Amiga version and derives its look and control from *Pilotswing*, *No-ferati* and *F1-RDC* for the Super NES from **Sets** didn't surprise us except that both of these games exceeded our greatest expectations. *Out of this World* from **Interplay** turned a lot of heads with its PC-like graphics and excellent animation while *Family Dog* from **LHQ** has great animation and humor. Well that's a wrap. We'll be reporting from Chicago and the Summer CES later in the year. In the meantime, many of the games mentioned above will appear on Nintendo Power in the next several months.

Nintendo has set its sights on the future with the Super Scope & necessary for the Super NES.
